本校の使命 The School's Mission

To help students become rich in mind and creativity, and teach them to contribute to the world in the future.

教育方針 Educational Policy

We let students think, judge, and act as individuals, and we use teaching methods which allow them to experience many things through educational activities.

各学科の特色 Course Description

普通科 General Course

We foster students who are competent, have a broad knowledge and contribute to society.

We deliver curricula aimed at preparing students for highly selective universities.

We put emphasis not only on studying but also developing their creative, logical and critical thinking skills. In addition, we have extracurricular classes and seminars to improve students' employability.

理数科 Science/Math Course

We cultivate specialists who can be actively involved in the field of science, engineering and medicine, and students who can contribute to society in the future.

Our curriculum enables students to enroll in the highest quality colleges and medical faculties.

This course includes special research projects, an overseas school trip and seminars by college professors.

類型 School Curriculum

Students apply to one of two courses of study prior to taking the school's entrance examination.

These "entry courses" include a general course and an intensive math and science course.

General course students choose a specialization for their second and third years. In the third year, we offer comprehensive classes to meet students' requirements for passing the examinations for tertiary education.

ENTRY COURSE	1 st YEAR	SPECIALIZATION	
		2 nd YEAR	3 rd YEAR
GENERAL		Liberal Arts	Liberal Arts
		Science	Science
MATH/SCIENCE	Science	Science	Science

部活動 Club activities

80% of CHS students participate in club activities. Students practice enthusiastically every day for the purpose of participating in local, regional and national competitions.

Sports Clubs

Baseball, Track and Field, Swimming, Basketball, Volleyball, Table Tennis, Soft Tennis, Handball, Soccer, Rugby Football, Badminton, Judo, Kendo, Mountain Climbing, Traditional Japanese Cheering, Alpine.

Culture Clubs

Literature, *Karuta*, Local History Research, Physics, Chemistry, Biology, Earth Science, Art, Calligraphy, Brass Band, Drama, Guitar Ensemble, English Speaking Society, Photography, Broadcasting, Tea Ceremony, *Go* and *Shogi*, Home Economics, Special Activities.

Club Achievements (2019-2020)

National Competition Participants:

Track and Field, Literature, *Karuta*, *Go* and *Shogi*, Quiz

Regional Competition Participants:

Track and Field, Swimming, *Go* and *Shogi*, *Karuta*, Photography, Broadcasting, Light music

Prefectural Competition Participants:

Track and Field, Alpine, Swimming, Soft Tennis, *Kendo*, Table Tennis, Badminton, Volleyball, Rugby, Football, Handball, Broadcasting, *Go* and *Shogi*, *Shodo*, Chemistry, Biology, ESS, Photography, Light music

Students' comments about club activities

I enjoy my school life at CHS. With the help of CHS teachers and friends, I can not only focus on my studies but also on my club activities, students council activities and school events. All my friends are working very hard, which encourages me to do my best.

Students' comment about CHS student council and school events

We have three big school events, which are the "Sho-kyu-sai," a cultural festival, "Dai-undohkai," a sports day, and "Yosenkai," a farewell party for 3rd year students. All the events are planned, organized and directed by students. Students really enjoy these events.

筑高三大行事 Three big school events

- 翔丘祭 *Sho-kyu-sai* - Culture Festival
大運動会 *Dai-undohkai* - Sports Festival
予餞会 *Yosenkai* - Farewell party for 3rd year students

その他行事 Other Events

- | | |
|--------|--|
| 入学式 | Entrance Ceremony (1 st year students) |
| 遠足 | Excursion for the 2 nd -year and 3 rd -year students |
| 研修旅行 | School Trip for 2 nd -year students |
| クラスマッチ | Class Match |

理数科 Math/Science Course

It is 30 years since the Math/Science course started. Every year, 40 students from class 11 study advanced math and advanced science in addition to general core courses, cultivating specialists who will be able to be actively involved in the field of science, engineering and medicine, and will contribute to society in the future.

There are special Science/Math course events in addition to the regular school events. Students lead a fulfilling school life.

Examples of such events are as follows:

1st year:

1. Visit companies
2. Radioactive rays practice seminar
3. Special lecture on environmental and energy issues
4. Research project
5. Research Tanegashima Yakushima

2nd year:

1. Special individual research project
2. Special lecture on environmental and energy issues
